

Patient Transport Assistance Policy

Category: Clinical Operations | Policy No: CHA-POL-013 | Effective: 01 Jan 2026 | Version: 1.2

Patients who are unable to travel independently due to mobility, financial, or medical constraints may request subsidized transport through the community outreach desk. Requests must be submitted at least 48 hours in advance for non-urgent appointments; same-day requests are accommodated on a best-effort basis. Transport partners are limited to pre-approved regional providers listed in the vendor directory.
