

Procurement Policy for Medical Supplies

Category: Finance | Policy No: CHA-POL-019 | Effective: 01 Jan 2026 | Version: 1.2

Any procurement over EUR 5,000 requires competitive quotes from at least three pre-approved regional vendors, with the selection rationale documented. Emergency procurement (e.g., critical stockouts) may bypass the standard quote process with director approval, but must be retroactively documented within 5 business days. All vendor contracts are reviewed annually for compliance with the NGO's ethical sourcing guidelines.
