

# IT Equipment and Device Security Policy

*Category: Compliance | Policy No: CHA-POL-024 | Effective: 01 Jan 2026 | Version: 1.2*

---

All staff laptops and tablets must have full-disk encryption and remote-wipe capability enabled before deployment. Personal devices are not permitted to access the patient records system under any circumstances, including via email or file-sharing links. Lost or stolen devices must be reported to IT within 1 hour to trigger the remote-wipe protocol.
