

Partnership and MOU Guidelines

Category: Governance | Policy No: CHA-POL-025 | Effective: 01 Jan 2026 | Version: 1.2

New partnerships with external agencies require a signed Memorandum of Understanding (MOU) outlining data-sharing boundaries, funding responsibilities, and reporting obligations before any joint activity begins. MOUs involving patient data sharing must be reviewed by the compliance officer in addition to the standard legal review. All active MOUs are reassessed annually and archived after termination for a minimum of 5 years.
