

Interpreter and Translation Services Protocol

Category: Clinical Operations | Policy No: CHA-POL-006 | Effective: 01 Jan 2026 | Version: 1.2

Interpreter services must be offered free of charge for any patient whose primary language differs from the clinician's. Phone-based interpretation via the approved language line should be used when an in-person interpreter is unavailable within 15 minutes. Family members, especially minors, should not be relied upon as primary interpreters for clinical consultations except in genuine emergencies.
