

Vaccination Clinic Operating Protocol

Category: Clinical Operations | Policy No: CHA-POL-008 | Effective: 01 Jan 2026 | Version: 1.2

Vaccination clinics operate on a walk-in basis every Tuesday and Thursday, with priority slots reserved for children under 5 and adults over 65. Cold chain storage temperatures must be logged every 2 hours during clinic operation. Any temperature excursion outside the 2-8°C range must be reported to the pharmacy lead immediately and affected doses quarantined pending review.
